

SQUISHTIVITIES

Healthy Families Pasco Hernando
Chris Vera
Dade City, FL

Chris is a home visitor and says she is having fun with ***Squishtivities*** and her families. She appreciates how the program is laid out; allowing her to quickly see which activity will provide the developmentally appropriate play she is seeking for an individual child.

She especially likes the painting activities. When the parents become involved, their eyes are opened to how creative play can also be a teaching and learning experience.

She created the easy to assemble "Sensory Table" where she also stores and transports her ***Squishtivities*** supplies. When taking an activity to a family's home, she prepares everything in advance and leaves the supplies and a copy of the instruction sheet for them to continue playing.

At HF Pasco Hernando, they have used ***Squishtivities*** at their regular Mom's Club group, choosing a couple of activities each month.

Overall, Chris says ***Squishtivities*** has enhanced her home visiting and created fun for all.

Other parent educators have told us they use *Squishtivities* in a variety of settings such as:

- **Home visits**
- **Community outreach events**
- **Special events**
- **Daycares and preschools**
- **Play groups**
